

# Accutome A-Scan Plus

<b>PRICE</b>	N/A
<b>COMPANY</b>	Accutome, Inc.
<b>PHONE</b>	(800) 979-2020 or (610) 889-0200
<b>WEB</b>	www.accutome.com
<b>KEY FEATURES</b>	
<ul style="list-style-type: none"> <li>• Easy-to-use immersion</li> <li>• Post-LASIK/postrefractive software</li> <li>• Unlimited pseudophakic eye types</li> <li>• Onsite training</li> </ul>	

Accutome, Inc. (Malvern, PA), introduces the A-Scan Plus with post-refractive software. The device is specifically designed to handle the difficulties of calculating the postrefractive patient. Enhanced software will improve patient outcomes and reduce costs. The company's proprietary digital signal analysis ensures precise measurements and eliminates marginally aligned scans.

Accutome will be providing in-booth immersion demonstrations at the AAO meeting in Chicago.

# Form Fit Hydrogel Plug

<b>PRICE</b>	N/A
<b>COMPANY</b>	OASIS Medical, Inc.
<b>PHONE</b>	(909) 305-5400 or (800) 528-9786
<b>WEB</b>	www.oasismedical.com
<b>KEY FEATURES</b>	
<ul style="list-style-type: none"> <li>• One-size solution</li> <li>• Plug expands to 20 times its original volume</li> <li>• Becomes a soft, pliable, gelatinous material upon contact with the tear film</li> <li>• Easily removable</li> <li>• No cap or anchor</li> </ul>	

OASIS Medical, Inc. (Glendora, CA), is now offering its Form Fit Hydrogel Plug (recently FDA approved) in a two-pack (one pair per box) for added convenience. The intracanalicular plug is indicated for long-term use. Composed of a hydrogel material that expands to 20 times its original volume with hydration, the Form Fit adjusts to accommodate each patient's vertical canalicular cavity within 10 minutes. In its dry state, the plug measures 3.0mm in length and 0.3mm in diameter. It may be removed by flushing saline solution through the punctal opening.

The Form Fit Intracanalicular Plugs are offered preloaded in user-friendly insertion instruments.

# Prolong Plug

<b>PRICE</b>	N/A
<b>COMPANY</b>	FCI Ophthalmics
<b>PHONE</b>	(800) 932-4202 or (781) 826-9060
<b>WEB</b>	www.fci-ophthalmics.com
<b>KEY FEATURES</b>	
<ul style="list-style-type: none"> <li>• Effective and economical long-term solution for transient dry eye symptoms</li> <li>• Composed of an absorbable copolymer material</li> </ul>	

FCI Ophthalmics (Marshfield Hills, MA) introduces the Prolong Plug, a long-term, synthetic punctal plug, to expand upon its line of short-term collagen and nondissolvable punctal plugs. The product is indicated for the postoperative treatment of dry eye, and it is designed to provide patients comfort from symptoms for 3 months or longer. The plug is particularly useful in those who have undergone LASIK, according to the company.

The Prolong is available in three sizes (0.3, 0.4, or 0.5mm in diameter) with a length of 2.0mm. FCI Ophthalmics offers the plugs in single-size or variety packages. ■

**Cataract & Refractive Surgery**  
TODAY

presents the second annual

# Refractive IOL Symposium

**THE VENETIAN**

**Resort • Hotel • Casino**

Las Vegas, December 2-4, 2005

**TOPIC HIGHLIGHTS**

- The business of refractive surgery:  
Pearls for building and maximizing your refractive IOL/refractive cataract practice
- The technology & techniques of refractive IOL Surgery: multifocal, accommodating, and phakic IOLs
- Matching the best technology to your patient
- Complications avoidance and management
- New technology: what to plan for in the near future

- Break-out sessions:
  - Transitioning from a cataract practice to a refractive IOL practice
  - Maximizing efficiency and outcomes in a refractive IOL setting
  - Astigmatism/LRIs
  - Highly accurate biometry
